Tamás Wetzel: economic development will receive a greater role in the policy for Hungarian communities abroad

Speaking at the 27th Camp of Hungarian university students in the Carpathian Basin in Szentendre, Deputy State Secretary for Hungarian communities abroad Tamás Wetzel said that in addition to the current well-functioning programs, the policy for Hungarian communities abroad should focus on economic development. The deputy state secretary stressed that the policy for Hungarian communities abroad has a structure which can serve as a suitable basis for further building, however it should be developed. Mr. Wetzel stressed that after symbolic steps attention should be paid to economy. He added that over recent years Hungarian organizations abroad have prepared several strategies on economic development which should be formed into a single, integrated strategy and supported with integrated resources.

Speaking at the event, the head of the Research Institute for Hungarian Communities Abroad (NPKI) Zoltán Kántor said that only strong communities are able to realize autonomy, therefore, Hungarian communities abroad should be strengthened. He added that in order to realize this aim, communities must also be active. Among the potential fields of action, Mr. Kántor mentioned the Council of Europe in which potential allies might be found, while in the field of bilateral relations, he drew attention to the potential opportunities basic treaties offer.

Conference entitled “Economic development in the service of personal prosperity and permanence in the homeland”

The State Secretariat for Hungarian communities abroad of the Prime Minister's Office is organizing a conference entitled “Economic development in the service of personal prosperity and permanence in the homeland” for Hungarian students of colleges and universities abroad. Academic year opening ceremony of Hungarian schools in Slovakia

The Association of Hungarian Teachers in Slovakia (SZMPSZ) organized the joint academic year opening ceremony of Hungarian schools in Slovakia on 29 August in Gúta/Guta. The event was addressed by the president of the Association of Hungarian Teachers in Slovakia Tibor Jókai and State Secretary for Hungarian Communities Abroad Árpád János Potápi. Speaking at the ceremony, the state secretary said that "Hungarian-language schools in neighboring countries have a dual role. They must excel in preserving Hungarian identity, and provide students with useful knowledge. Today we see that the latter demand is more topical than ever. Hungarians in the Carpathian Basin must cope with not just the problem of assimilation, but the danger of the emigration of Hungarian youth. In order to keep our youth in their homeland, we must provide them with such knowledge which ensures a future for them at home. The only way to persuade Hungarian parents to enroll their children in Hungarian-language kindergartens and schools is to keep and increase the quality of Hungarian schools.
